

Congratulations and welcome to our clinic!

Congratulations on your pregnancy and thank you for choosing Rushmore OB/Gyn for your obstetrical care. We are excited to be a part of such a special time in your life. Dr. Pamela Schmagel, Dr. Katie Whaley, Amanda Barry, CNP, and Sarah Hinds, PA-C work closely together as a team to provide you with quality prenatal/postnatal care both in the office and at Monument Health Hospital. Please understand that we do share call with Black Hills OB/Gyn. Therefore, there is a possibility that one of these providers may also be involved with your care or delivery. The providers in our call group include Dr. Marvin Buehner, Cassie Applegate, CNM, and Chelsea Iverson, CNM.

After each visit, please make sure to have your next appointment scheduled before you leave the office. You will have an ultrasound at approximately 20 weeks gestation. This is when you may request information on the sex of your baby if you desire.

Please make sure to call the office if you have any questions or concerns. Our nursing staff is available to help answer any questions you may have. The office staff may request that you come into the office if there are any concerns that need to be addressed. Please be flexible and have patience as we may be working you in between other patients and you may need to wait. If you do present to the office for a concern not related to your pregnancy (i.e. upper respiratory infection, migraines, influenza, etc.) your insurance will be billed outside the global charge.

You are responsible for keeping your account paid throughout the pregnancy. You will be sent monthly statements if there is any balance on your account. The front office staff may request payment at your next appointment to reconcile accounts as soon as possible prior to delivery. If you have any questions regarding your bill, please call our office.
