

## Outreach Patient Information

You have been scheduled at our office on behalf of another provider. On occasion they do request that a patient receive services from our office so that you do not have to travel. Please be aware of the following:

- If you have an ultrasound in our office please be aware that you may receive a separate bill from your provider in addition to our services.
- Our office does not perform intrauterine insemination or ultrasound on the weekends. You may have to travel if you need it on a weekend or if our providers are unavailable.
- We will try to accommodate you in our schedule as best we can. There are times you may be referred out to Rapid City Regional Hospital or Dakota Radiology if our schedule doesn't allow.
- Infertility is often *not* covered by insurance. Due to this we do collect all infertility treatment payments up front before services are provided. If the insurance for some reason does pay we will keep the credit on your account until services are complete and then refund you the remaining.
- The following is a list of typical fees so you may prepare ahead of time. This may not be all inclusive:
  - Office visit to make a plan of care: \$79-211.00
  - Transvaginal ultrasound (per ultrasound): \$412.00
  - Intrauterine insemination with partner specimen: \$300.00
  - Intrauterine insemination with donor specimen: \$125.00
  - Injection: \$38.00
  - HSG: \$1500.00
- Labs, medications, and any services provided at another facility are not typically billed through our office and you will receive a separate bill for these.
- If you ever have questions please discuss these with any of the billing staff.
